# **BatchMaster ERP for**

# 

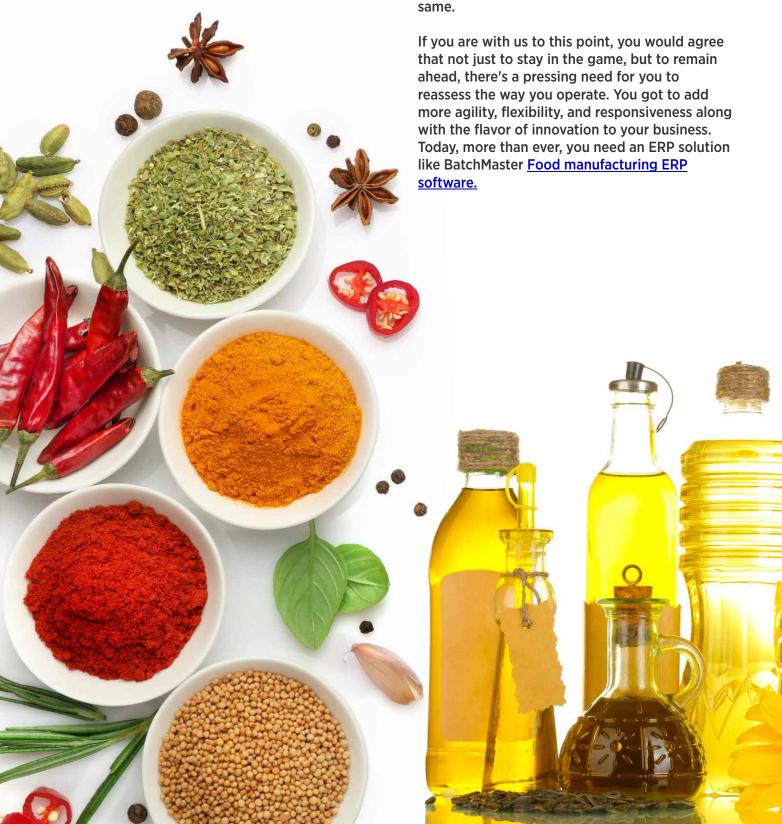

The recipe for success your food & beverage manufacturing business needs

# **BatchMaster ERP for Food**

If you have got your hand on this brochure, you don't need to be told that the food and beverage manufacturing industry is facing certain challenges. The raw material prices have been volatile for quite some time now. The market has been shrinking. Consumer demands have been shifting, and there are greater expectations in terms of quality and speed of delivery, even as the perennial need to ensure compliance to the stringent food safety regulations remains the same.

# **BatchMaster ERP for Food**

BatchMaster ERP software for Food provides food manufacturing organizations with the necessary tools to handle their business processes end-to-end. It helps them optimally plan, manage, and control their business operations so that the challenges pertaining to regulatory compliance, production, turnaround times, traceability, pricing, packaging and labelling, and food safety, quality and perishability are kept at bay.

A fully future-proof solution, **BatchMaster Food ERP software** is the recipe for success for a

range of food and beverage companies in subverticals such as: meat & poultry, seafood, bakeries, beer, dairy, frozen food, chocolates, edible oils, pet food, and others.
