

## SciTech Speciality Pvt. Ltd. optimized its operations to full health using BatchMaster Manufacturing for SAP Business One

### Organization

SciTech Speciality Pvt. Ltd.

### Location

Nasik, Maharashtra

### Industry

Herbal & Cosmetic Products Manufacturer

### Products and Services

Herbal & Cosmetic Creams, Ointments, Gels and Capsules

### Solution

BatchMaster Manufacturing for SAP Business One

### Striving for High Quality

SciTech Speciality Pvt. Ltd. is popular for its finest quality of herbal & cosmetic products. The company was established in 1986 and has been experiencing a remarkable growth for delivering numerous range of herbal & cosmetic creams, ointments, gels and capsules. With three dedicated manufacturing units for Efferceuticals and SoluGran products for Nutraceutical, Pharmaceutical, Poultry Products, Cosmetics, and other Speciality products - the company follows every regulatory compliance and is WHO GMP certified for Nutraceuticals.

### Objectives

- Keep a close eye on every part of the manufacturing process
- To have formula control, security, and tracking
- Produce products that are high on quality and low on price
- Ensure the availability of adequate inventory
- Record receipts, custody, and issue of materials
- Manage expiration of products
- Reduce wastage
- Ensure compliance such as FDA 21 CFR
- Handle the production as per cGMP guidelines

### Tailor-made, Feature-full ERP Solution

SciTech Speciality had witnessed a remarkable growth in recent years because of increasing demand levels of its quality and compliant herbal & cosmetic products from customers. However, the constantly changing market conditions and regulation environment – forced SciTech Speciality to become capable enough to react quickly to stay competitive. The company was looking for a robust and scalable ERP system that was built specifically for their industry.

After careful evaluation of several ERP solutions, SciTech Speciality chose BatchMaster Manufacturing for SAP Business One.

### Why BatchMaster Manufacturing for SAP Business One?

- ☞ A mature, standalone & true process manufacturing ERP
- ☞ Original developer of formulation
- ☞ Requires minimum or no customization
- ☞ Specially tailored for process manufacturing industry
- ☞ User-friendly GUI
- ☞ Adheres to industry & regulatory compliance

### One-stop Solution to Help Stay Ahead and Accurate in All Business Practices

The team of decision makers at SciTech Speciality found BatchMaster Manufacturing for SAP Business One an effective personal care and cosmetics manufacturing management system. The capability to process large volume of operational data across the supply chain that can be used as information while executing production planning,

***“We trusted the expert name of BatchMaster and bought its ERP to enhance our business. Now, we do not have to worry about the production planning, security of our formulas, and meeting compliance. Also, it gave us the confidence to react quickly to volatile market demands and stay competitive.”***

Mr. Ajay Tambve,  
IT Head,  
SciTech Speciality Pvt. Ltd.

forecasting demand, allocating material, and monitoring and evaluating manufacturing operations, particularly impressed the team.

Product's comprehensive approach with range of modules—formulation management, quality control, production, R&D, compliance, inventory management, traceability—designed specifically for personal care and cosmetics manufacturers has enabled SciTech Speciality to achieve streamlined operations, optimized production, and compliant manufacturing.

## Resolution

- Introduced formulation management to track ingredient details, store formulations, and secure each formula with an approval workflow.
- Offered ability to handle product development, and packaging of creams, ointments, gels and capsules.
- Simplified calculating the production cost considering the material, labour, and other costs.
- Performing batch-monitoring activities, dynamically sizing batches as per specifications, executing SOPs and such.
- NC, CAPA, Inspection plans, Adverse Event Reporting, etc. helped them assure QA, QC, and compliance to cGMP.
- Achieved automated lot traceability to trace ingredients all the way through the supply chain—from procurement to final sale and vice versa.
- Decreased time to perform product recalls and mock recalls.
- Established the foundation to help calculate when, what and how much to produce and procure.
- The solution has even supported the first expiring, first out (FEFO) approach to inventory management to avoid the risk of selling an expired product.

## Technology Removes Communication Gap & Boosts Production

BatchMaster Manufacturing for SAP Business One introduced a powerful platform to integrate different departments of SciTech Speciality. The organization is able to digitalize their formulations- their biggest assets. The customer can now record ingredient details, store formulations, and secure each formula with an approval workflow. With batch handling functionality of BatchMaster Manufacturing for SAP Business One, operations like product development, printing BMR and MBR, customized labeling & packaging of creams, ointments, gels and capsules have become much effortless for SciTech Speciality.

Due to company's roadmap to achieve compliant manufacturing, the ERP solution helped SciTech Speciality assure QA, QC, and compliance to cGMP. For this, it offered features like - NC, CAPA, Inspection plans, and Adverse Event Reporting. In addition, it provided automated lot traceability to trace ingredients all the way through the supply chain. The solution has tailored a bespoke support to inventory management through FEFO approach.

## Benefits

- ✓ Optimized production
- ✓ Reduced wastage
- ✓ Compliant operations
- ✓ Assured quality
- ✓ Happier customers
